DEATH OF JAMES W. NICHOL. A MELANCHOLY OCCURRENCE. One of the saddest and most distressing accidents that has occurred in our city for years is that of the fatal poisoning of yesterday of JAMES W. NICHOL, son of JAMES NICHOL, Esq., who resides on Sumner street, between Oak and Church.

The following are the circumstances connected with this melancholy affair: On Friday night, feeling unwell, young NICHOL went to PARK'S Drug Store, on the corner of Sumner and Church streets, and procured a dose of morphia, which he took while in the store, and then went home to his father's residence.

Yesterday morning he visited several places in the city, apparently in good health, but towards nine o'clock, feeling the same symptoms of restlessness, which he had experienced the night before, he sent fifteen cents to the same drug store, and procured three grains more of morphia, which he took. As this failed in giving him the desired quiet, about half-past eleven o'clock he repeated the dose. At twelve o'clock he was observed sleeping very soundly. This, however, did not arouse any suspicion, until his sister, on going into the parlor to join the party, heard him breathing in an unusual manner, and called Mrs. MARGARET's attention to it, who went into the parlor where he was, called him and asked him to turn over on his right side, which he signified his assent by a nod of his head and complied with her request. After adjusting his head, he left the room, when a servant girl remarked to Mrs. NICHOL, that she had perceived the morphia for him during the morning. This caused some uneasiness on the part of Mrs. NICHOL, who called in Dr. W. L. NICHOL. He found him in a state of perfect narcosis, breathing only twice after his arrival, after which artificial respiration was resorted to without avail. He expired at half past two o'clock. He will be buried this evening at 4 o'clock, from the dwelling of his father.

HEALTH REPORT.—OFFICE OF THE BOARD OF HEALTH.—Nashville, August 11th, 1886, 7 P. M. To date one case of cholera has been reported. The subject, a visitor, left the city of Cincinnati, and arrived in this city on Wednesday evening. On the succeeding day symptoms of cholera were exhibited. The premises occupied by the patient have been ordered to be thoroughly cleaned and disinfected. There is no reason to apprehend a prevalence of the disease.

The sickness incident to the season is not of a violent type, and the health of the population of the city is equal to that of former years at the same period. The Board would impress upon citizens the necessity for a free use of the sanitary measures recommended a week or two since. Official reports will be made hereafter whenever facts make it necessary.

By order of the Executive Committee,  
J. P. FLETCHER, M. D., Secretary.  
TUESDAY & PASTOR RAILROAD MEETING.—By request of members of the Churches of Commerce and others, Col. De Bow and other gentlemen will address them on Monday, the 13th inst., at 3 o'clock P. M. Merchants, manufacturers and citizens are urged to interest to attend, as a subject of vital interest to Nashville is to be considered. The Commission of the Board of Health is to be present for the transaction of business at the close of the addresses. It is highly important that there should be a full meeting.

HOMES TRUMPET ARRESTED.—We mentioned yesterday that a horse that had been arrested during the time in Edgefield, and that his accomplice left before his arrest, in the direction of Clarksville, but that parties had been in pursuit. Capt. CAVITT, of the detective, left on a steamer Friday night and got to Clarksville yesterday morning where he found the escaped thief PIERCE, whom he arrested and will arrive here to-day with the stolen horse. The stolen horse was also obtained. It belongs to a gentleman by the name of W. W. LEECH, near Watertown, in Wilcox county.

HARPER ADAMS.—From a private letter received in this city, we learn that HARPER, with two or three of his desperadoes, attacked HENNER STEWART, at Mitchellville, in Sumner county, on last Friday, and after beating him forced him to give up his money, amounting to one hundred dollars. They also, at the same time, LOUISIANA HERRICK, the postmaster, who was also present. They threatened both men with death should they reveal the facts to the authorities or to the press.

WE DO LEAVE to direct the attention of the reader to the advertisement of Mr. L. S. KIMS, Real Estate Agent, Winchester, Tenn. He offers for sale some of the most desirable farming lands in Middle Tennessee, situated in the midst of an intelligent and virtuous population, among whom settlers are entirely welcome. Mr. S. is a reliable business man, and his statements and transactions may be fully relied upon.

SHOOTING AFFAIR.—A German whose name we could not learn was shot last night by a watchman, who stood at the Louisville depot. They were at a stake, near the Union Hall, on Market street, playing a game of bagatelle, when a dispute arose between them. The watchman drew his pistol and fired at the German, but the ball only inflicted a flesh wound as the pistol was ward off. The parties were arrested.

EDUCATIONAL.—The Misses O'BRYAN will resume their school on Monday, September 2d. These young ladies have been teaching school for several years in this city and the South, and have earned for themselves the character of superior instructors. All who desire to have their children thoroughly taught should not forget the young ladies. See their advertisement.

CHANGE OF SCHEDULE.—On and after this day trains leave Nashville for Louisville at 6:30 A. M. and 3:30 P. M., and arrive at Louisville 2:30 P. M. and 11:45 P. M., making three and a half hours less travel than before.

A P-R-O-P-H-E-C-Y!!  
The "Poor White Trash" to be  
Extirpated.  
A MODERN PROPHECY AMONG THE  
NIGGERS.  
Baldwin Laid in the Shade.

One Bedford, said to be a member (?) of the Nashville bar, infused with the spirit of prophecy, and desiring to make known his divine divining to the "fated" people of the United States, took advantage of the great convocation of the colored population, who were assembled in convention in this city during the past week, to reveal the awful fate that awaits the unrepentant millions of America within the next hundred years.

He accordingly hovered around the Convention for several days, anxiously awaiting an opportunity to communicate to more than thirty millions of souls their destiny. What magnanimity! What a wonderful appreciation of the interests of a nation's people swelled his bosom! The fourth day had arrived and was well nigh gone, and the prophecy was not revealed. Finally, by a preconcerted plan, some unthoughtful darky moved that the great diviner be invited to address the Convention.

The auspicious moment had arrived, and he ascended the pulpit with a slow but steady step. All was silent! His wild but big with the subject—the destinies of a nation! Overcoming his emotion he proceeded to unfold his wonderful revelation to his audience, of the "fortunate race," as will be seen from the following remarkable prophecy:

"You must strive to educate yourselves, for I tell you, that within the next hundred years, the white people, North and South, in consequence of their corruption and wickedness, will be exterminated from the face of the earth, and you will be left as a race to take their place, and must prepare yourselves for the great responsibility that will be yours."

Who does not tremble? Wake ye unrepentant millions! The learned divines of America may now lay aside their manuscripts touching the future, and let this modern prophet unfold the mysteries of coming centuries.

THE EXCURSION TRAIN TO KINGSTON SPRING on Sundays has proven to be quite popular among our pleasure seekers. Last Sunday there were a large crowd of ladies and gentlemen went down, and from report they enjoyed themselves finely. It is quite refreshing to go to the country once in a while and breathe the pure fresh air, and drink ice, cool water. We understand that another large number of our young folks contemplated going down on the train this morning, for the purpose of enjoying themselves. Be aboard at 9 o'clock precisely, as our young friend, TOM CRAWFORD, cries "all aboard!" at that hour, and if you don't obey him you will be left, sure.

It is a favorite trip, and one that is popular with the ladies; he is polite and accommodating, and takes pleasure in having everything done as it should be. The fine engine ANDY JOHNSON makes the trip in quick time. You can eat your breakfast at home, and get your dinner at the Springs, and return home in time for supper.

PHILIP LAWRENCE, for being drunk and disorderly, fined \$3.

A. MERRITT, not meritorious by any means, and a man named SMITH, for disorderly conduct and using language calculated to disturb the peace in "quiet Sunday," fined \$10 each.  
E. MONTGOMERY, for refusing to be arrested by the police, fined \$2.  
A negro fellow by the name of CHARLES, for causing a row in a negro saloon on Line street, fined \$5.

An old African by the name of BAINE, for abusing his wife and threatening to whip his daughter—fined \$3.  
JAS. CUNY, for keeping a house of ill fame on Front street, fined \$5.  
One Capt. BURNETT, for abusing ROSE HOWARD, fined \$3.

Mrs. CATHERINE CROWLEY an Irish lady, on a charge of disturbing the quiet of her community, discharged.  
Two females "unfortunate," LOU ADAMS and JENNY MOHR, for engaging in a melee and threatening each other's life, fined \$5 each.

A SUGGESTION.—We find the following in the Cincinnati Commercial, and reproduce it for the purpose of calling the attention of our Board of Health and city authorities to its suggestions:  
It would be a wise plan during the visitation of cholera if all water carts had a certain amount of chloride of lime put into each load of water, by which the water would be constantly purified, and it would be a good policy, to keep up this disinfecting principle. I am proposing nothing new. This plan was tried with the greatest success in London, England, during the time cholera was last there, and after this solution of chloride of lime had been well diffused through the water, the number of cases from that awful disease rapidly decreased. Would it not, then, be well to adopt it here? It is but little, and I think, has to be but suggested to be put at once in operation.

AN ENGLISHMAN.  
PERSONAL.—GER. HENRY MARSHALL, of New Orleans, and Gen. AVERY, of Arkansas, passed through our city yesterday, the former en route to Louisville, Ky., the latter to Clarksville, Tenn.

Mr. A. AUSTIN, associate editor of our neighbor, the Dispatch, returned last evening, after an absence of some three weeks. We are gratified to see that his absence from the arduous duties of his office has contributed much to his health.

E. G. PEARL, of the banking house of WATERHOUSE, PEARL & CO., of New York, also arrived in town, yesterday, and paid us a visit.

MONETARY AND COMMERCIAL.  
Office of the Union and American.  
SUNDAY, AUGUST 12, 1886.  
MONETARY.—The tendency of gold in New York was slightly upward, having opened at 149 1/2, was 149 1/2 at noon, and closed at 149 1/2 at 4 P. M. Brokers here were offering 149 1/2, and selling at 149.  
Silver is bought in small lots at 12 1/2. Government securities are unchanged.  
There is little doing in the current money market.  
Bank of Tennessee is bought at 25 1/2, and held at 25 1/2, with little demand.  
Planters' Bank is dull at 40 buying, and 40 selling.  
Union Bank is in some demand at 70 1/2 buying, and 70 1/2 selling.

There is some demand at 70 1/2 buying, and 70 1/2 selling.  
Southern money generally is very dull, and is seldom taken at over the advertised rate.  
Cotton.—There is no important change to note in this article. A lot of 40 bales changed hands yesterday at 26 1/2. Holders are still confident of better figures being obtained at some future day, and are patiently awaiting for something to turn up in their favor.

Grain.—There was a moderate activity exhibited in this department, and prospects are looking more better. The supply of old flour is somewhat reduced, while the receipts of new have been quite liberal. We quote \$10 1/2 for new superfine; \$2 1/2 for extra, and \$1 1/2 for fancy brands. New wheat continues in fair request, with considerable sales at 41 1/2 for No. 1; 40 1/2 for No. 2; 39 1/2 for No. 3; 38 1/2 for No. 4; 37 1/2 for No. 5; 36 1/2 for No. 6; 35 1/2 for No. 7; 34 1/2 for No. 8;
